AP Human Geography:
Chapter 12 Services: Section 1: Where Did Services Originate?

Name: ______________________

Origins & Types of Services

- Types of services (In MDC’s majority of workers are engaged in services. 2/3 of GDP. In LDC less than ½ of GDP)

Types of Services (3 types: consumer, Business and Public services)

- **Consumer services**: Define. What are the four main types and percentage of work force in each?

- **Business services** Define. What are the 3 main types and percentage of work force in each?

- **Public services**. Define: What are types of jobs, percentages of work force in each?

- **Changes in number of employees**: where has there been an increase in service jobs in the last 40 years or so?

- **Origin of services**: Summarize.

  How did the early consumer services probably start?

  What is the probable start of Early public services?
• Services in Contemporary rural settlements

  – Clustered rural settlements (Define and provide an example and reasons for this pattern)

    What are Circular rural settlements?

    What are Linear Rural Settlements?

  – Dispersed rural settlements (Define and provide an example and reasons for this pattern)

    What was the Enclosure movement?
