Introduction to Services

To begin, let’s evaluate three close-together (within 25 miles of each other) towns: the one your school is located in and two others with which you are probably somewhat familiar.

Below is an overview of each town and its population size, so you get a general idea:

- LaGrange is a 4th-class city with 8,231 residents and an area of 7.143 sq. miles.
- Louisville is the largest city in the Commonwealth of Kentucky and the state’s only 1st-class city with 253,128 residents and an area of 399 square miles.
- Goshen is a 5th-class city with 907 residents and an area of 128 acres.

Now, consider the following: which towns would be likely to have a...

- gas station?
- fast-food restaurant?
- general practitioner?
- shopping center?
- shopping mall?
- movie theater?
- theater for plays or performances?
- professional piano tuner?
- lawyer for traffic court?
- neurosurgeon?
- thrift store?
- lawyer for international litigation?
- luxury fashion shop (e.g., Fendi, Prada, Versace)?
